

# NEW ARRIVALS!

## CHARCOAL OVEN

## FEATURES

- Made entirely of high quality stainless steel.
- Coated with insulating materials that optimize the use of carbon and reduce heat radiation.
- Adjustable air inlet and smoke outlet with multiple adjustment positions.
- An interior firewall designed for enhanced security features and a thermal insulation mat that reduces heat radiation around the oven, enabling the placement of other equipment nearby.
- The spacious interior cabin of this oven enables multiple grills to be utilized comfortably, with the added safety feature of a firewall to ensure smoke is safely extracted.
- Ash drawer made of high quality stainless steel for better thermal insulation during the ignition period.
- Greater power and efficiency. A way to cook faster, cleaner and healthier.
- No need to connect to a power source, works with charcoal only.
- A 5kg charcoal load is perfect for one 50p shift, reaching cooking temperature in approximately 30 minutes with the help of the upper air flow regulator and lower adjustable air inlet for rapid internal oven heat increase.
