WHAT'S COOKING?

NEW PRODUCT LAUNCH

FEATURES

- Anti-condensation “thermal breaker” door frame keeps your kitchen floor dry, with no drips or slip hazards.
- 60mm CFC-free insulation on every side, which locks the cold in and keeps energy costs down.
- Includes a door microswitch, which stops the inner fan automatically when the door opens, saving energy.
- Corrosion-resistant evaporator, built for demanding kitchen conditions.
- Ventilated cooling throughout the chamber with simple manual defrost.
- Easy-to-read digital controls with an audible alarm to signal when chilling is complete.
- Interior and exterior stainless steel construction, which is hygienic, durable, and easy to clean.
- Includes a needle probe for added convenience.
